

ESLAV ECLAM SUMMER SCHOOL 2027

Health Surveillance, Disease Diagnosis and Outbreak Management

3-5 June 2027, Hannover

AIM & VENUE

The 2027 ESLAV ECLAM Summer School will be a 3-day course at the Medical School of Hannover, Germany, focused on health surveillance, disease diagnosis and control, zoonoses and outbreak management. The programme combines lectures, practical work, case-based discussion, group exercises and a facility visit.

Participants will rotate through practical and interactive sessions in small groups. The programme links diagnostic evidence to decisions about biosecurity, animal welfare and scientific validity.

Target audience: ECLAM residents, designated veterinarians, animal welfare officers, facility leaders.

Program preview

1

HEALTH AND DISEASE MONITORING
BARRIERS, DECONTAMINATION

2

DIAGNOSTIC METHODS
BACTERIOLOGY, PARASITOLOGY, PATHOLOGY,
NECROPSY

3

OUTBREAK DECISION MAKING
3RS AND HEALTH MANAGEMENT

4

SPECIES SPECIFIC SESSIONS
MICE, RATS, IMMUNODEFICIENT ANIMALS
ZEBRAFISH, NHP, PIGS, RUMINANTS
